

# Clip and Cover

## Get Started

Get 40 squares in one color and 40 in another color, one paper clip, and one number cube. Take 10 squares in one color and 10 squares in another color to cover the game spaces as you play the game. Make two teams of two. Take turns.

## At Your Turn

Toss one cube to find your oval. **EXAMPLE:**  Choose the 3rd oval on the left, **or** choose the 3rd oval on the right. Mark your oval with a paper clip.

## How to Play

The oval you chose shows the number of squares that are in each group. Find a game space that shows the number of squares in all and the number of equal groups you need to get that number of squares in each group. Display squares to explain your answer.

## How to Win

The first player or team to get any three connected rectangles in a row or column wins.
