

clip and Cover

Get Started
 or

Get 10 squares in one color and 10 in another color, two paper clips, and two number cubes. Get fraction strips if you want to use them. Take turns.

At Your Turn

Toss two cubes to find your ovals. **EXAMPLE:** Choose the 3rd oval on the left and the 5th oval on the right, **or** choose the 5th oval on the left and the 3rd oval on the right. Mark your ovals with paper clips.

How to Play

Explain how to add the two numbers you chose. You may use fraction strips to help you. Find and cover the sum. Lose your turn if the answer is taken.

How to Win

The first player or team to get any three connected rectangles in a row or column wins.

$\frac{1}{8}$	$\frac{12}{8}$	$\frac{10}{8}$	$\frac{8}{8}$	$\frac{11}{8}$	$\frac{2}{8}$
$\frac{3}{8}$	$\frac{9}{8}$	$\frac{5}{8}$	$\frac{11}{8}$	$\frac{3}{8}$	$\frac{6}{8}$
$\frac{4}{8}$	$\frac{13}{8}$	$\frac{7}{8}$	$\frac{9}{8}$	$\frac{6}{8}$	$\frac{7}{8}$
$\frac{5}{8}$	$\frac{10}{8}$	$\frac{7}{8}$	$\frac{11}{8}$	$\frac{12}{8}$	$\frac{2}{8}$
$\frac{1}{8}$					$\frac{8}{8}$
$\frac{4}{8}$					$\frac{6}{8}$

If you have more time

Play again! Say an equation that includes the two fractions you chose and their sum. If the sum is greater than 1, explain why.
