

Teamwork

Get Started

or

Get paper and a pencil.

Put **1** **2** **3** **4** in a bag. Take turns.

Repeat for Each Round

Pick a number tile. Read the expression next to that number.

Find the picture below that matches your expression. Explain why you chose that picture. Decide on the correct sum or difference.

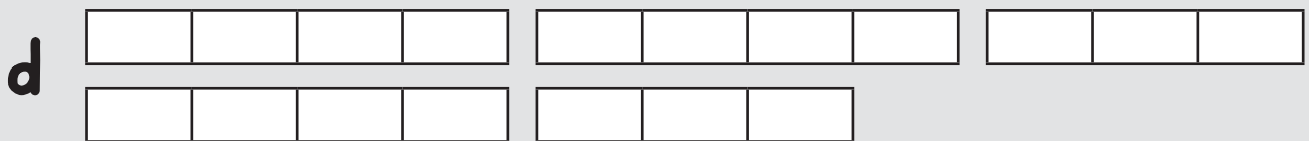

Simplify if possible. Use the picture to explain why your answer is correct.

1 $2\frac{3}{5} + 1\frac{1}{5}$

2 $2\frac{1}{3} - 1\frac{2}{3}$

3 $2\frac{3}{8} - 1\frac{5}{8}$

4 $2\frac{3}{4} + 1\frac{3}{4}$

If you have more time

Create an expression with mixed numbers that your team can solve by drawing a picture of fraction strips.
