

Display the Digits

0 1 2 3 4 5 6 7 8 9

Get Started
 or

Explain how to find each missing digit. Use mental math.
 Display each 0–9 tile exactly once. If you have a partner, take turns.

$$\begin{array}{r} 5\frac{a}{4} \\ + 21\frac{3}{8} \\ \hline 2\frac{b}{c} \end{array}$$

$$\begin{array}{r} d\frac{4}{9} \\ + 5\frac{e}{3} \\ \hline 13\frac{1}{f} \end{array}$$

$$\begin{array}{r} 1\frac{3}{1g} \\ + 32\frac{4}{h} \\ \hline 3\frac{i}{10} \end{array}$$

$1\frac{1}{2} + 1\frac{2}{4}$
 $= \frac{j}{k}$

a	b	c	d	e
f	g	h	i	j

If you have more time

Make up another addition puzzle with mixed numbers.
 Ask your partner to display the answers with 0–9 tiles.
