 or

Pick a number tile to find a decimal. Say that decimal.
 Explain how to show that decimal on the whole grid with 100 parts.
 Explain how to find an equivalent fraction.
 Cover the equivalent fraction with your number tile.
 Display each 0–9 tile exactly once. If you have a partner, take turns.

- 0.90 0.5
- 0.75 0.3
- 0.15 0.6
- 0.8 0.25
- 0.2 0.4

One Whole

$\frac{3}{4}$	$\frac{6}{20}$	$\frac{1}{4}$	$\frac{3}{5}$	$\frac{4}{5}$
$\frac{1}{5}$	$\frac{9}{10}$	$\frac{3}{20}$	$\frac{2}{5}$	$\frac{1}{2}$

If you have more time

Try again. This time say the equivalent fraction in the grid and another equivalent fraction for each decimal.
