

# Toss and Talk

## Get Started

Get 10 squares in one color and 10 in another color.  
Get two number cubes. Take turns with another player or team.  
Talk about math as you play!

## At Your Turn

Toss two number cubes. Add the dots. Find your toss below.  
Follow the directions. Explain your thinking. Cover the answer.  
If the answer is taken, lose your turn. Have fun!

Toss	Read and explain how to answer the question.
2	If a watermelon weighs about 40 pounds, then about how much do 2 of those watermelons weigh?
3	If one car weighs 3000 pounds, then about how much do two of those cars weigh?
4	If half the weight of a sea dolphin is about 50 pounds, then about how much does the sea dolphin weigh?
5	If one half the weight of a crocodile is 500 pounds, about how much does that crocodile weigh?
6	How much does an adult weigh if that adult weighs between 150 and 170 pounds?

7	If the weight of a truck is 4 tons, about how much would 12 of those trucks weigh?
8	If one half the weight of an African elephant is 2 tons, about how much does the elephant weigh?
9	If a dozen cantaloupes weigh 24 pounds, about how much does only one cantaloupe weigh?
10	If 3 cherries weigh about 1 ounce, then about how much do 144 cherries weigh?
11	If two potatoes weigh about 1 pound, then about how much do 14 potatoes weigh?
12	If a dozen peaches weigh 96 ounces, about how much does one peach weigh?

7 pounds	48 tons	6,000 pounds	48 tons
80 pounds	2 pounds	160 pounds	4 tons
4 tons	1,000 pounds	48 ounces	2 pounds
160 pounds	100 pounds	8 ounces	1,000 pounds

## How to Win

You win if you are the first to get four connected rectangles, like:

## If you have more time

Play again!
