

Teamwork

Get Started

Get 5 squares in one color for one team.

Get 5 squares in another color for the other team.

Put **1 2 3 4 5** in a bag. Take turns with another team of two.

Repeat for Each Round

Pick a tile. Find the interval of length next to your number.

Look on the game board to find an object that fits your estimate.

Cover that space with a square.

Lose your team's turn if your team members do not find an object.

Put the tile back in the bag.

Repeat until one team has five squares on the game board.

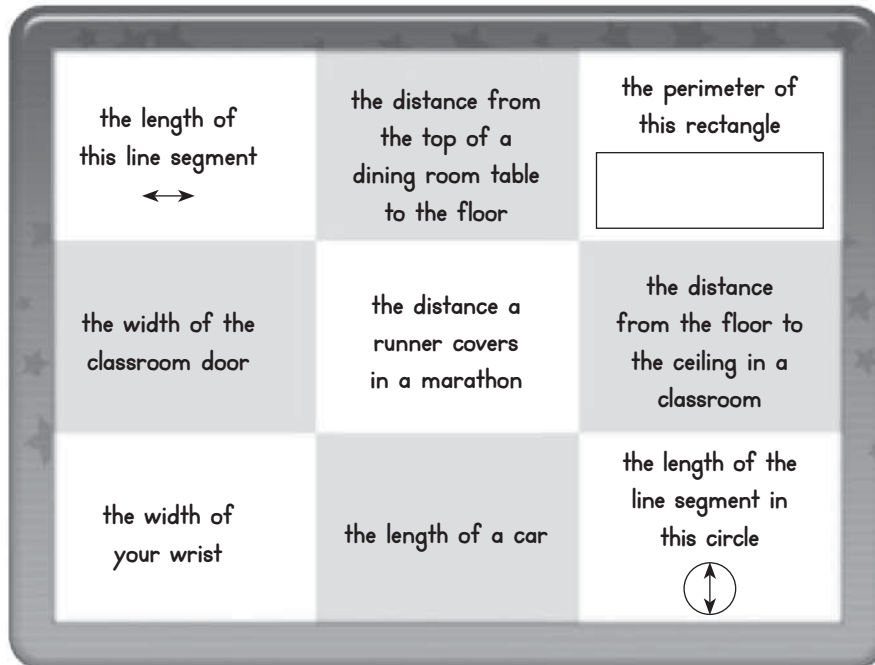

1 between 2 mm and 9 mm

2 between 2 cm and 9 cm

3 between 2 dm and 9 dm

4 between 2 m and 9 m

5 between 20 km and 90 km

If you have more time

Make your own game board like this one.
Play again with your game board.
