or

Put **0 1 2 3 4 5 6 7 8 9** in a bag.
Work together.

Repeat for Each Round

Pick a tile. Find the question next to that tile number.
Discuss the question and decide if the answer is **YES** or **NO**.
Place your tile in the space below the answer you choose. Stack your tiles.
There will be the same number of tiles in each stack.

0 Would a water glass have a capacity of 3 liters?

1 Does 100 mL of juice fit in a juice glass?

2 Does a kitchen sink hold 10 liters of water?

3 Would you get half a liter of juice from an orange?

4 Would one person put a liter of dressing on a salad?

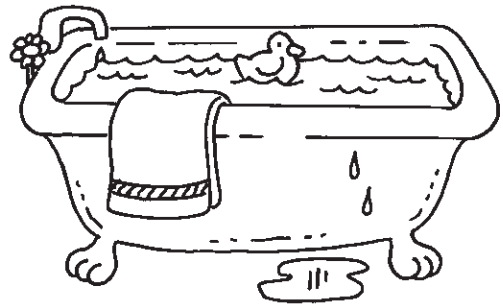

5 Would you measure a spoon of cough syrup in milliliters?

6 Would a lake contain less than 100 liters of water?

7 Can you drink 100 mL of water in one minute?

8 Does an ice cube contain about 30 mL of water?

9 Can you take a bath in 100 mL of water?

YES

NO
