 or

Pick a tile. Find the item next to that tile number.
 What metric unit of mass would you use to find the mass of the object?
 Place your tile in the space below the name of the unit you chose.
 Stack your tiles. There will be the same number of tiles in each stack.
 If you have a partner, take turns.

- a watermelon
- a bag of potatoes
- five sheets of paper
- a desk
- a couch
- a sugar cube
- a leaf
- a box of books
- a caterpillar
- a bracelet

grams (g)

kilograms (kg)

If you have more time

Make up another puzzle about units of mass.
 Ask your partner to show the answers by stacking the tiles.
