

Quick Questions

Get Started

Each player tosses two number cubes.

If your numbers match another player's numbers, toss again.

Decide who will read the first question. Take turns.

For Each Question

Listen to the reader.

Discuss and agree on the correct answer.

Every player who has the digit in the hundreds place in the quotient can remove one cube that shows the answer.

How to Win

The first player who removes both cubes wins. Have fun!

a	When you divide 4,000 by 8, which digit is in the hundreds place in the quotient?
b	When you divide 1,600 by 4, which digit is in the hundreds place in the quotient?
c	When you divide 2,700 by 9, which digit is in the hundreds place in the quotient?
d	When you divide 5,400 by 9, which digit is in the hundreds place in the quotient?
e	When you divide 3,000 by 6, which digit is in the hundreds place in the quotient?
f	When you divide 2,400 by 8, which digit is in the hundreds place in the quotient?
g	When you divide 3,600 by 9, which digit is in the hundreds place in the quotient?
h	When you divide 4,800 by 8, which digit is in the hundreds place in the quotient?
i	When you divide 900 by 9, which digit is in the hundreds place in the quotient?
j	When you divide 2,100 by 7, which digit is in the hundreds place in the quotient?
k	When you divide 2,500 by 5, which digit is in the hundreds place in the quotient?
l	When you divide 1,800 by 9, which digit is in the hundreds place in the quotient?
m	When you divide 3,200 by 8, which digit is in the hundreds place in the quotient?

n	When you divide 2,800 by 7, which digit is in the hundreds place in the quotient?
o	When you divide 1,800 by 6, which digit is in the hundreds place in the quotient?
p	When you divide 800 by 8, which digit is in the hundreds place in the quotient?
q	When you divide 4,200 by 7, which digit is in the hundreds place in the quotient?
r	When you divide 1,600 by 8, which digit is in the hundreds place in the quotient?
s	When you divide 4,500 by 9, which digit is in the hundreds place in the quotient?
t	When you divide 700 by 7, which digit is in the hundreds place in the quotient?
u	When you divide 1,400 by 7, which digit is in the hundreds place in the quotient?
v	When you divide 3,000 by 5, which digit is in the hundreds place in the quotient?
w	When you divide 1,200 by 6, which digit is in the hundreds place in the quotient?
x	When you divide 2,400 by 6, which digit is in the hundreds place in the quotient?
y	When you divide 600 by 6, which digit is in the hundreds place in the quotient?
z	When you divide 1,500 by 5, which digit is in the hundreds place in the quotient?
