

Toss and Talk

Get Started

Get 10 squares in one color and 10 in another color. Get two number cubes. Take turns with another player or team. Talk about math as you play!

At Your Turn

Toss two number cubes. Add the dots. Find your toss below. Follow the directions. Explain your thinking. Cover the answer. If the answer is taken, lose your turn. Have fun!

Toss	Read and complete the sentence with a word from the game board.
2	Intersecting lines pass through the same _____.
3	Parallel lines never _____.
4	Perpendicular lines form a _____ corner.
5	A point is an _____ location in space.
6	A line is a straight path of points that goes on forever in two _____.

7	A plane is the collection of all the points and lines that make up a flat _____.
8	All perpendicular lines are lines that _____.
9	If two lines are parallel, then they share no _____ in common.
10	All the points and lines that make up a flat surface form a _____.
11	Two lines can intersect in only one _____.
12	Two perpendicular lines can never be _____.

square	point	plane	exact
directions	surface	intersect	surface
intersect	point	parallel	point
exact	point	directions	intersect

How to Win

You win if you are the first to get four connected rectangles, like:

If you have more time
