

# Teamwork

**Get Started**

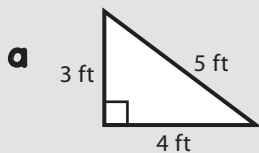

or

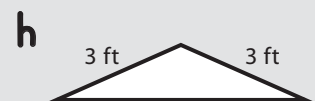

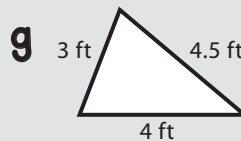

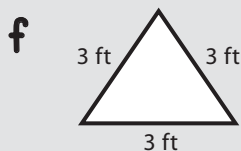

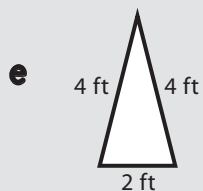

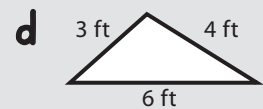

Put **1** **2** **3** **4** **5** **6** **7** **8** in a bag. Take turns.

**Repeat for Each Round**

Pick a tile. Read the question next to that number. Ask your team to help you find the answer to the question. Put your tile in the space that has the letter next to the triangle your team chose.

**c** none

- 1** Which triangle is an obtuse, scalene triangle?
- 3** Which triangle is an acute, isosceles triangle?
- 5** Which triangle is an acute, equilateral triangle?
- 7** Which triangle is an acute, scalene triangle?

- 2** Which triangle is a right, isosceles triangle?
- 4** Which triangle is an obtuse, isosceles triangle?
- 6** Which triangle is a right, equilateral triangle?
- 8** Which triangle is a right, scalene triangle?

|          |          |          |          |
|----------|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> | <b>d</b> |
| <b>e</b> | <b>f</b> | <b>g</b> | <b>h</b> |

If you have more time

Draw triangles to make your own puzzle like this one. Ask your team to solve your puzzle.
